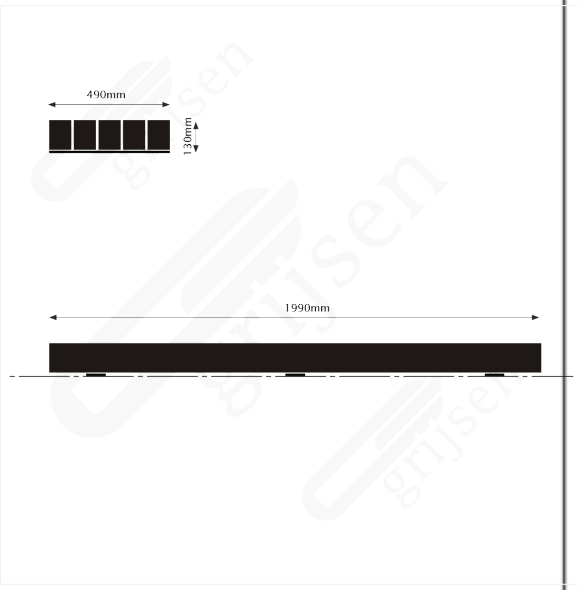
PRODUCT SPECIFICATION SHEET

Plane wall-top seat (lengthwise)

Article number: 9999999905

Series: Plane



Product description

The Plane single wall-top seat is recognizable by its simple design and robust materials. The top seat can be placed on a concrete element, a natural stone edge or a masonry wall.

Characteristics:

- Simple comfortable seat
- Applicable on concrete elements, natural stones or masonry walls
- Robust design

Easily create comfortable seats

The Plane single wall-top seat easily transforms a cool stone or concrete surface into a comfortable seat thanks to the wooden seat. It can be mounted on various surfaces. On request, Grijsen can also supply this Plane single wall-top seat in other sizes.

Materials

The top seat is produced from steel and wood. The steel strips under the wooden beams are hot-dip galvanized. As a result, the top seat lasts a long time in public space. The seat is made of untreated hardwood. This wood comes from 100% FSC-certified forests. This means that the wood has been harvested in a sustainable and responsible manner.
